FORMING BLANKS

Available as 120mm Diameter Round Blanks or 125mm Diameter Round Blanks or 125mm x 125mm Square Blanks

All our forming blanks apart from Erkocryl are ‘Wide Belt Extruded’ so as to ensure they have no stresses within them and they are a uniform thickness. They are made from virgin granules and do not contain any recycled material to ensure that they can be manufactured to be of surgical grade. No latex.

ERKODUR HIGH IMPACT IMPLANT SPLINT/STENTS/RETAINERS/ESSEX RETAINERS

complete with very thin spacer-does not bubble-no pre-heating required-combines with acrylic
(Does bond with acrylic or light cured materials – treat with degreasing/laminating agent and then after 5 minutes with monomer. For best bond do not remove from model for 3 hours). (4.00 and 5.00mm may need to be pre-dried).
